### VEHICLE EXPENSES:

If the business vehicle is used privately the expenses need to be adjusted to take out the private portion. If you keep a log book please advise the percentage of business use. If you do not keep a log book you can only claim 25% business use. (A log book should be kept for 3 consecutive months. This should be done once in every three year period).

## BUSINESS USE OF PERSONAL ASSETS

If you run your business from home, you may use your personal equipment or assets for business use. In order to accurately claim all your tax deductible expenses, please ensure you provide us with the following information:

### TELEPHONE:

**Business Tolls:** .....

Please supply your telephone bills with calls clearly marked as business or personal.

### VEHICLE EXPENSES:

If you have used a private vehicle for business purposes please advise the number of kilometres and we can make a claim based on 0.77c a kilometre.

# HOME OFFICE CALCULATION

Please calculate the total amounts and/or supply documentation about the following household expenses so we can calculate your tax deductible Home Office claim.

## Percentage to claim

In order for us to accurately calculate your Home Office claim, we need to know the area of the space used as an office, or for other business activities, in relation to the area of the whole house. [e.g. a house which is 100m<sup>2</sup>, with an office space which is 10m<sup>2</sup> means the claimable amount of the household expenses is 10%.] When calculating the space used for business in your home, please note the claimable space:

- should not include your toilet/bathroom, kitchen, garage etc. (unless specifically available for use by your customers); and
- can include storage areas - if you are storing items/documents/equipment/tools used for your business.
